There are a thousand different sides to wood. The color of fibre, the pattern of veins and the pleasure of touch are a direct and timeless language. The **Gres Tough PLANKS** is a collection of tiles in the sizes of 200x1200 MM and 200x1000 MM that give shape to warm environments that are elegantly simple, in the balance between tradition and modernity. The feeling of authenticity of this wood-effect ceramic flooring makes it unique. The veining and tones are incredibly faithful and are different from tile to tile, breathing new life in the alluring details of wood.
